Brand owner		NGO		Trade Union		
Multi– stakeholder			Combined Audit	(select all that app	oly)	

Audit Content:

- (1) A SMETA audit was conducted which included some or all of Labour Standards, Health & Safety, Environment and Business Ethics. The SMETA Best Practice Version 6.1 (March 2019) was applied. The scope of workers included all types at the site e.g. direct employees, agency workers, workers employed by service providers and workers provided by other contractors. Any deviations from the SMETA Methodology are stated (with reasons for deviation) in the SMETA Declaration.
- (2) The audit scope was against the following reference documents

2-Pillar SMETA Audit

- ETI Base Code
- SMETA Additions
 - Universal rights covering UNGP
 - Management systems and code implementation,
 - Responsible Recruitment
 - Entitlement to Work & Immigration,
 - Sub-Contracting and Home working,

4-Pillar SMETA

- 2-Pillar requirements plus
- Additional Pillar assessment of Environment
- Additional Pillar assessment of Business Ethics
- The Customer's Supplier Code (Appendix 1)
- (3) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.
- (4) Any Non-Compliance against customer code shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

SMETA Declaration

I declare that the audit underpinning the following report was conducted in accordance with SMFTA Best Practice Guidance and SMETA Measurement Criteria.

- (1) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.
- (2) Any Non-Compliance against customer code alone shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

Any exceptions to this must be recorded here (e.g. different sample size): Nil

Auditor Team (s) (please list all including all interviewers): Hannah Zhana

Lead auditor: Hannah Zhang

Team auditor: N/A

Interviewers: Hannah Zhang

Report writer: Hannah Zhang Report reviewer: Ina Zeng

Date of declaration: July 26, 2019

Note: The focus of this ethical audit is on the ETI Base Code and local law. The additional elements will not be audited in such depth or scope, but the audit process will still highlight any specific issues.

This report provides a summary of the findings and other applicable information found/gathered during the social audit conducted on the above date only and does not officially confirm or certify compliance with any legal regulations or industry standards. The social audit process requires that information be gathered and considered from records review, worker interviews, management interviews and visual observation. More information is gathered during the social audit process than is provided here. The audit process is a sampling exercise only and does not auarantee that the audited site prior, during or post–gudit, are in full compliance with the Code being gudited against. The provisions of this Code constitute minimum and not maximum standards and this Code should not be used to prevent companies from exceeding these standards. Companies applying this Code are expected to comply with national and other applicable laws and where the provisions of law and this Code address the same subject, to apply that provision which affords the greater protection. The ownership of this report remains with the party who has paid for the audit. Release permission must be provided by the owner prior to release to any third parties.

Audit Parameters

	Audit Parameters				
A: Time in and time out	Day 1 Time in: 8:30 Day 1 Time out: 17:00	Day 2 Time in: 8:00 Day 2 Time out: 16:30	Day3 Time in: N/A Day3 Time out: N/A		
B: Number of auditor days used:	2MD(One auditor in 2 d	ays)			
C: Audit type:	 ☐ Full Initial ☐ Periodic ☐ Full Follow-up ☐ Partial Follow-Up ☐ Partial Other If other, please define: 				
D: Was the audit announced?	☑ Announced☐ Semi – announced: Window detail: weeks☐ Unannounced				
E: Was the Sedex SAQ available for review?	✓ Yes☐ NoIf No, why not				
F: Any conflicting information SAQ/Pre-Audit Info to Audit findings?	☐ Yes ☑ No If Yes , please capture c	letail in appropriate aud	it by clause		
G: Who signed and agreed CAPR (Name and job title)	Mr. Chunfang Xu/HR Ma	anager			
H: Is further information available (if yes, please contact audit company for details)	☐ Yes ☑ No				
I: Previous audit date:	N/A				
J: Previous audit type:	N/A				
K: Were any previous audits reviewed for this audit	☐ Yes ☐ No ☐ N/A				

Audit attendance	Management	Worker Representati	ves
	Senior management	Worker Committee representatives	Union representatives

A: Present at the opening meeting?	⊠ Yes □ No	⊠ Yes □ No	☐ Yes ☐ No	N/A
B: Present at the audit?	⊠ Yes □ No	⊠ Yes □ No	☐ Yes ☐ No	N/A
C: Present at the closing meeting?	⊠ Yes □ No	⊠ Yes □ No	☐ Yes ☐ No	N/A
D: If Worker Representatives were not present please explain reasons why (only complete if no worker reps present)	N/A.			
E: If Union Representatives were not present please explain reasons why: (only complete if no union reps present)	N/A. There was no Un	ion in the factory.		

Guidance

The Corrective Action Plan Report summarises the site audit findings and a corrective, and preventative action plan that both the auditor and the site manager believe is reasonable to ensure conformity with the ETI Base Code, Local Laws and additional audited requirements. After the initial audit, the form is used to rerecord actions taken and to categorise the status of the non-compliances.

N.B. observations and good practice examples should be pointed out at the closing meeting as well as discussing non-compliances and corrective actions.

To ensure that good practice examples are highlighted to the supplier and to give a more 'balanced' audit a section to record these has been provided on the CAPR document (see following pages) which will remain with the supplier. They will be further confirmed on receipt of the audit report.

Root cause (see column 4)

Root cause refers to the specific procedure or lack of procedure which caused the issue to arise. Before a corrective action can sustainably rectify the situation, it is important to find out the real cause of the noncompliance and whether a system change is necessary to ensure the issue will not arise again in the future.

See SMETA BPG Chapter 7 'Audit Execution' for more explanation of "root cause".

Next Steps:

- 1. The site shall request, via Sedex, that the audit body upload the audit report, non-compliances, observations and good examples. If you have not already received instructions on how to do this then please visit the web site www.sedexalobal.com.
- 2. Sites shall action its non-compliances and document its progress via Sedex.
- 3. Once the site has effectively progressed through its actions then it shall request via Sedex that the audit body verify its actions. Please visit www.sedexalobal.com web site for information on how to do this.
- 4. The audit body shall verify corrective actions taken by the site by either a "Desk-Top" review process via Sedex or by Follow-up Audit (see point 5).
- 5. Some non-compliances that cannot be closed off by "Desk-Top" review may need to be closed off via a "1 Day Follow Up Audit" charged at normal fee rates. If this is the case, then the site will be notified after its submission of documentary evidence relating to that non-compliance. Any followup audit must take place within twelve months of the initial audit and the information from the initial audit must be available for sign off of corrective action.
- 6. For changes to wages and hours to be correctly verified it will normally require a follow up site visit. Auditors will generally require to see a minimum of two months wages and hours records, showing new rates in order to confirm changes (note some clients may ask for a longer period, if in doubt please check with the client).

Corrective Action Plan

	Corrective Action Plan – non-compliances								
Non- Compliance Number The reference num ber of the non- com pliance from the Audit Report, for exam ple, Discrimination No.7	New or Carried Over Is t his a new non- com pliance ident ified at t he follow-up or one carried over (C) that is st ill outstanding	Details of Non- Compliance Det ails of Non-Compliance	Root cause (com pleted by the site)	Preventative and Corrective Actions Details of actions to be taken to clear non- com pliance, and the system change to prevent re- occurrence (agreed bet ween site and audit or)	Timescale (Immediate, 30, 60, 90, 180, 365)	Verification Method Desktop / Follow-Up [D/F]	Agreed by Management and Name of Responsible Person: Note if management agree to the non- com pliance, and document name of responsible person	Verification Evidence and Comments Det ails on corrective action evidence	Status Open/Closed or comment

Confirmation

Please sign this document confirming that the above findings have been discussed with and understood by you: (site management) If actual signatures are not possible in electronic versions, please state the name of the signatory in applicable boxes, as indicating the signature.						
A: Site Representative Signature:	Mr. Chunfang Xu	Title: HR Manager				
		Date: July 26, 2019				
B: Auditor Signature:	Hannah Zhang	Title: Lead Auditor				
		Date: July 26, 2019				
C: Please indicate below if you, the site	management, dispute any of the findings. No ne	eed to complete D-E, if no disputes.				
D: I dispute the following numbered nor Nil	n-compliances:					
E: Signed:	Mr. Chunfang Xu	Title: HR Manager				
(If <u>any</u> entry in box D, please complete a signature on this line)		Date: July 26, 2019				
F: Any other site Comments: Nil						

Guidance on Root Cause

Explanation of the Root Cause Column

If a non-compliance is to be rectified by a corrective action which will also prevent the non-compliance re-occurring, it is necessary to consider whether a system change is required.

Understanding the root cause of the non-compliance is essential if a site is to prevent the issue reoccurring.

The root cause refers to the specific activity/ procedure or lack of activity/procedure which caused the non-compliance to arise. Before a corrective action can rectify the situation, it is important to find out the real cause of the non-compliance and whether a system change is necessary to ensure the issue will not arise again in the future.

Since this is a new addition, it is not a mandatory requirement to complete this column at this time. We hope to encourage auditors and sites to think about Root Causes and where they are able to agree, this column may be used to describe their discussion.

Some examples of finding a "root cause"

Example 1

Where excessive hours have been noted the real reason for these needs to be understood, whether due to production planning, bottle necks in the operation, insufficient training of operators, delays in receiving trims, etc.

Example 2

A non-compliance may be found where workers are not using PPE that has been provided to them. This could be the result of insufficient training for workers to understand the need for its use; a lack of follow-up by supervisors aligned to a proper set of factory rules or the fact that workers feel their productivity (and thus potential earnings) is affected by use of items such as metal gloves.

Example 3

A site uses fines to control unacceptable behaviour of workers.

International standards (and often local laws) may require that workers should not be fined for disciplinary reasons.

It may be difficult to stop fines immediately as the site rules may have been in place for some time, but to prevent the non-compliance re-occurring it will be necessary to make a system change.

The symptom is fines, but the root cause is a management system which may break the law. To prevent the problem re-occurring it will be necessary to make a system change for example the site could consider a system which rewards for good behaviour

Only by understanding the underlying cause can effective corrective actions be taken to ensure continuous compliance.

The site is encouraged to complete this section so as to indicate their understanding of the issues raised and the actions to be taken.
